

## How Do I Do That?

Each 5<sup>th</sup> grade student will interview his Kindergarten reading buddy to determine what skill or skills he would like to learn. Ask your reading buddy probing questions to help determine what kind of skills you would like to teach him. For example, you may ask questions like the following:

- Do you know how to tie your shoe?
- Do you know how to make cookies?
- Do you know how to add and subtract?
- Do you know how to shoot a basketball?
- Do you know how to make a paper airplane?

These questions are only examples. Please use your imagination and come up with your own questions when finding out the skill your reading buddy wants to learn. Then, fill in your name, your reading buddy's name, and the top 3 skills your reading buddy wants to acquire. Once completed, please return these forms back to Mrs. Hanks in the Media Center. When we meet again, we will begin our presentation project using the results from your interview.

Have fun with this assignment!

I'll see you in the lab!
